PROFESSIONAL PROFILE

ICT graduate with a solid foundation in software development, software engineering, web development, and system design principles. Passionate about exploring Artificial Intelligence to automate processes, solve real-world problems, and drive meaningful innovation. Experienced in building practical applications through academic and working at Kayise IT, with knowledge of Agile methodologies and collaborative development environments. Detail oriented, analytical, and committed to writing clean, efficient, and scalable code.

EDUCATION

School Name:	Mzimba Secondary
Certificate Name:	National Senior Certificate
Year:	2020

Qualification 🎓

Name of Institution:	University of Mpumalanga
Name of the Qualification:	Diploma in Information and Communication Technology
Year Obtained:	2025
Name of Institution:	University of Mpumalanga
Name of the Qualification:	Advanced Diploma in Information and Communication Tech
Year Obtained:	2026

EXPERIENCE

Company Name: Kayise IT

Position: Software Developer

- Collaborate with clients to understand their requirements and translate them into actionable project plans.
- Design prototypes to gather feedback, enhance communication and ensuring alignment with client expectations.
- Develop and build systems tailored to meet specific client needs, demonstrating adaptability and strong technical skills.
- and develop AI-powered solutions, including building and training machine learning models to automate business processes and improve operational efficiency.
- Build mobile and software applications, delivering scalable, user-friendly, and performance-driven digital solutions across multiple platforms.

ACADEMIC PROJECTS

- Mental Health Tracking System (Python & Deep Learning) – Developed a platform to monitor emotions, book appointments, access resources, and interact with a support chatbot.
- Quality Management System (Python) – Built for lecturers and program leaders to share documents, track deadlines, and generate reports.
- Charity Donation Application (Jakarta EE) – Developed an application with a fully integrated payment gateway for seamless donations.
- Fitness Tracker (Java) – Created a mobile app to track workouts, monitor progress, and provide fitness resources.
- Information Systems Platform – Built systems working with MongoDB, MySQL, Firebase, and PostgreSQL to manage and analyze data efficiently.
- Multimedia Presentation Website – Designed and developed a website for interactive multimedia presentations.

HACKATHON EXPERIENCE

Hackathon Participation (2023)

Built Application integrated artificial intelligence to solve real word problems

TECHNICAL SKILLS

Artificial Intelligence (AI) Development / AI Model Training

Automation and Task Optimization

Internet of Things (IoT)

Software Development Lifecycle (SDLC)

API Integration

System Design and Prototyping

SAP (Basic)

Microsoft Office

GitHub

Rest API

PROGRAMMING LANGUAGES & DATABASES

Languages & Technologies: JavaScript, Python, Java, PHP, HTML, React and Node.js

Databases: PostgreSQL, Firebase, MySQL, MongoDB

CORE STRENGTHS

Analytical thinking, Problem solving, Time management, Team collaboration, Communication skills, and Adaptability
