## PROFESSIONAL PROFILE

ICT graduate with a solid foundation in software development, software engineering, web development, and system design principles. Passionate about exploring Artificial Intelligence to automate processes, solve real-world problems, and drive meaningful innovation. Experienced in building practical applications through academic and hands-on projects, with knowledge of Agile methodologies and collaborative development environments. Detail-oriented, analytical, and committed to writing clean, efficient, and scalable code. Aspiring Software Engineer eager to contribute to forward-thinking teams and develop innovative, AI-driven solutions.

## EDUCATION

School Name: Mzimba Secondary

Certificate Name: National Senior Certificate

Year: 2020

### Qualification

Name of Institution: University of Mpumalanga

Name of the Qualification: Diploma in Information and communication Technology

Year Obtained: 2025

Name of Institution: University of Mpumalanga

Name of the Qualification: Advanced Diploma in Information and communication Technology

Year Obtained: 2026

## EXPERIENCE

• Collaborate with clients to understand their requirements and translate them into actionable project plans.
• Design prototypes to gather feedback, enhancing communication and ensuring alignment with client expectations.
• Develop and build systems tailored to meet specific client needs, demonstrating adaptability and strong technical skills.
• Design and develop AI-powered solutions, including building and training machine learning models to automate business processes and improve operational efficiency.
• Build mobile and software applications, delivering scalable, user-friendly, and performance-driven digital solutions across multiple platforms.

## ACADEMIC PROJECTS

•Mental Health Tracking System (Python & Deep Learning) – Developed a platform to monitor emotions, book appointments, access resources, and interact with a support chatbot.
• Quality Management System (Python) – Built for lecturers and program leaders to share documents, track deadlines, and generate reports.
• Charity Donation Application (Jakarta EE) – Developed an application with a fully integrated payment gateway for seamless donations.
• Fitness Tracker (Kotlin) – Created a mobile app to track workouts, monitor progress, and provide fitness resources.
• Information Systems Platform – Built systems working with MongoDB, MySQL, Firebase, and PostgreSQL to manage and analyze data efficiently.
• Multimedia Presentation Website – Designed and developed a website for interactive multimedia presentations.
• IoT & Cybersecurity Projects – Gained practical experience working with IoT devices and understanding cybersecurity principles.
• Project Management Experience – Studied project management methodologies and led a team in developing a year-long project from planning to execution.
• Hackathon Participation (2023) – Collaborated in a team to design, analyze, and present innovative solutions under tight deadlines.

**TECHNICAL SKILLS** :

Artificial Intelligence (AI) Development / AI Model Training

Automation and Task Optimization

Internet of Things (IoT)

Software Development Lifecycle (SDLC)

API Integration

System Design and Prototyping

SAP (Basic)

Microsoft Office

GitHub

REST API

**PROGRAMMING LANGUAGES & DATABASES**

Languages & Technologies: JavaScript, Python, Java, PHP, HTML, React

Databases: PostgreSQL, Firebase, MySQL, MongoDB

**CORE STRENGTHS**

Analytical thinking, Problem solving, Time management, Team collaboration, Communication skills, and Adaptability

**REFERENCES**

Name: Dr L Ubisi

Relationshio: Mentor
